Activity 12: Type Placement Edits

Time: Fifteen Minutes

Goal: Edit the type placement of an existing map!

Activity: In this Mapping Activity, you'll edit the type placement of a map published in *Rolling Stone* magazine. The graphics editors did not understand type placement conventions.

1. Download Activity12_TypeEdits.ai from Canvas and open.
2. Keep the Template layer locked.
3. Circle <u>five</u> type placement errors.
4. Annotate the map with your suggestions OR create a new label and place it appropriately.
5. Make sure all of your markings are in the Edits and Annotations Layer.
6. Save a (.pdf) version of your map edits.
